

To: D.Ziembicki**Date:** August 13, 1982**From:** M.Tomczyk**CC:** K.Spencer, B.Wade,
D.Robertson, S.Shivji,
C.Winterble**Subject:** MAX BASIC

Per the Attached Memo to C.Winterble, we will be marketing a "Full" version of BASIC with 4K RAM on the cartridge. Charlie indicated that we should work with you to obtain a working prototype of "Full-BASIC" for the MAX with 4K RAM on the cartridge. Please let me know the earliest date you can provide us with a working prototype to test. (I believe Shiraz Shivji has the software for "Full-BASIC" if you need it.)
